

## **FUNGI and BACTERIA GENERA\* for the AIHA EMPAT Program**

**Please Note:** This list is only a representation of the organisms that may be used in the EMPAT program and does not constitute a complete list of organisms to be used in the EMPAT program. Organisms may be added or deleted from this representative listing at the discretion of the AIHA.

*\*All cultures shall be derived from type cultures previously identified and referenced by reputable laboratories.*

### **BACTERIA**

<i>Abiotrophia</i>	<i>Erwinia</i>	<i>Paenibacillus</i>
<i>Achromobacter</i>	<i>Erysipelothrix</i>	<i>Pandoraea</i>
<i>Acidovorax</i>	<i>Escherichia</i>	<i>Pantoea</i>
<i>Acinetobacter</i>	<i>Ewingella</i>	<i>Pasteurella</i>
<i>Aerococcus</i>	<i>Exiguobacterium</i>	<i>Pectobacterium</i>
<i>Aeromonas</i>	<i>Facklamia</i>	<i>Pediococcus</i>
<i>Agrobacterium</i>	<i>Flavimonas</i>	<i>Pedobacter</i>
<i>Alcaligenes</i>	<i>Flavobacterium</i>	<i>Photorhabdus</i>
<i>Alishewanella</i>	<i>Gemella</i>	<i>Plesiomonas</i>
<i>Alloiococcus</i>	<i>Globicatella</i>	<i>Pragia</i>
<i>Ammoniphilus</i>	<i>Granulicatella</i>	<i>Proteus</i>
<i>Amphibacillus</i>	<i>Hafnia</i>	<i>Providencia</i>
<i>Aneurinibacillus</i>	<i>Halomonas</i>	<i>Pseudomonas</i>
<i>Arcanobacterium</i>	<i>Helcococcus</i>	<i>Psychrobacter</i>
<i>Arthrobacter</i>	<i>Klebsiella</i>	<i>Rahnella</i>
<i>Bacillus</i>	<i>Kluyvera</i>	<i>Ralstonia</i>
<i>Balneatrix</i>	<i>Kocuria</i>	<i>Raoultella</i>
<i>Bergeyella</i>	<i>Kytococcus</i>	<i>Rhizobium</i>
<i>Brenneria</i>	<i>Lactococcus</i>	<i>Rhodococcus</i>
<i>Brevibacillus</i>	<i>Leclercia</i>	<i>Roseomonas</i>
<i>Brevibacterium</i>	<i>Legionella</i>	<i>Rothia</i>
<i>Brevundimonas</i>	<i>Leifsonia</i>	<i>Saccharomonospora</i>
<i>Budivicia</i>	<i>Leminorella</i>	<i>Saccharopolyspora</i>
<i>Burkholderia</i>	<i>Leuconostic</i>	<i>Salmonella</i>
<i>Buttiauxella</i>	<i>Listeria</i>	<i>Serratia</i>
<i>Cedecea</i>	<i>Macrococcus</i>	<i>Shewanella</i>
<i>Cellulomonas</i>	<i>Methylobacterium</i>	<i>Sphingobacterium</i>
<i>Cellulosimicrobium</i>	<i>Microbacterium</i>	<i>Sphingomonas</i>
<i>Chromobacterium</i>	<i>Micrococcus</i>	<i>Sodalis</i>
<i>Chryseobacterium</i>	<i>Micropolyspora</i>	<i>Staphylococcus</i>
<i>Citrobacter</i>	<i>Moellerella</i>	<i>Stenotrophomonas</i>
<i>Comamonas</i>	<i>Moraxella</i>	<i>Streptococcus</i>
<i>Corynebacterium</i>	<i>Morganella</i>	<i>Streptomyces</i>
<i>Curtobacterium</i>	<i>Mycobacterium</i>	<i>Tatumella</i>
<i>Delftia</i>	<i>Myroides</i>	<i>Thermoactinomyces</i>
<i>Dermabacter</i>	<i>Nesterenkonia</i>	<i>Thermobacillus</i>
<i>Dermacoccus</i>	<i>Nocardia</i>	<i>Trabulsiella</i>
<i>Dolosicoccus</i>	<i>Nocardiosis</i>	<i>Vagococcus</i>
<i>Edwardsiella</i>	<i>Obesumbacterium</i>	<i>Virgibacillus</i>
<i>Empedobacter</i>	<i>Ochrobacterium</i>	<i>Weeksella</i>
<i>Enterobacter</i>	<i>Oerskovia</i>	<i>Xenorhabdus</i>
<i>Enterococcus</i>	<i>Oligella</i>	<i>Yersinia</i>
		<i>Yokenella</i>

## FUNGI

*Absidia*  
*Acremonium*  
*Alternaria*  
*Amblyosporium*  
*Aphanocladium*  
*Arthrinium*  
*Arthrobotrys*  
*Arthroderma*  
*Arthrographis*  
*Ascotricha*  
*Aspergillus*  
*Asteromyces*  
*Aureobasidium*  
*Basipetospora*  
*Beauveria*  
*Bipolaris*  
*Bispora*  
*Botryosporium*  
*Botrytis*  
*Byssochlamys*  
*Calcarisporium*  
*Cephalophora*  
*Ceratocystis*  
*Cerebella*  
*Cercospora*  
*Chaetomium*  
*Chromelosporium*  
*Chrysonilia*  
*Chrysosporium*  
*Cladophialophora*  
*Cladosporium*  
*Colleotrichum*  
*Cunninghamella*  
*Curvularia*  
*Cylindrocarpon*  
*Cylindrocladium*  
*Dicyma*  
*Drechslera*  
*Echinobotryum*  
*Emericella*  
*Emmonsia*  
*Epicoccum*  
*Epidermophyton*  
*Eupenicillium*  
*Eurotium*  
*Exophiala*  
*Exserohilum*  
*Fusarium*  
*Geomyces*  
*Geotrichum*  
*Gliocladium (=Clonobotrys)*  
*Gliomastix*  
*Gonatobotryum*  
*Graphium*  
*Helminthosporium*  
*Hormographiella*  
*Humicola*  
*Hyalodendron*  
*Lecythophora*  
*Leptographium*  
*Leptosphaeria*  
*Leptosphaerulina*  
*Malbranchea*  
*Memmoniella*  
*Metarhizium*  
*Microsphaeropsis*  
*Microsporium*  
*Monodictys*  
*Mortierella*  
*Mucor*  
*Mycotypha*  
*Myrothecium*  
*Nectria*  
*Neosartorya*  
*Nigrospora*  
*Oedocephalum*  
*Oidiodendron*  
*Ophiostoma*  
*Paecilomyces*  
*Papulaspora*  
*Penicillium*  
*Periconia*  
*Pestalotiopsis*  
*Phialocephala,*  
*Phialophora*  
*Phoma*  
*Phragmocephala*  
*Pithomyces*  
*Polypaecilum*  
*Polythrimum*  
*Rhinochrysiella*  
*Rhizomucor*  
*Rhizopus*  
*Rhodotorula*  
*Scolecobasidium (=Ochroconis)*  
*Scopulariopsis*  
*Scytalidium*  
*Sepedonium*  
*Sordaria*  
*Spegazzinia*  
*Sporobolomyces*  
*Sporothrix*  
*Sporotrichum*  
*Stachybotrys*  
*Staphylotrichum*  
*Stemphylium*  
*Syncephalastrum*  
*Taeniolella*  
*Talaromyces*  
*Tetraploa*  
*Thamnidium*  
*Thysanophora*  
*Tilletiopsis*  
*Torula*  
*Torulomyces*  
*Trichoconiella*  
*Trichoderma*  
*Trichophyton*  
*Trichothecium*  
*Tritirachium*  
*Ulocladium*  
*Verticillium*  
*Verticicladiella*  
*Wallemia*  
*Xeromyces*
