Beryllium PAT Program (BePAT) 2024 ENROLLMENT.....	8
STOCK SAMPLE 2024 ORDER FORM.....	9
RETEST SAMPLE 2024 ORDER FORM .....	10

### General Guidelines

- Once enrolled in a PAT Program, a participant will begin to receive samples for the next available round (refer to [PAT Schedule](#)).
- PAT Programs are performance-based and do not specify a particular analytical method to be used, with the exception of NIOSH Method 7400 for asbestos and manmade fibers. Proficiency testing samples must be analyzed using the same analytical procedure used to test the majority of routine customer samples.
- Retest PT rounds are available to all participants enrolled in the original round of testing, if available. Refer to PAT Schedule for ordering deadlines.
- Stock samples are available for purchase and are provided with a Certificate of Analysis.
- The PAT Enrollment Form(s) and Participation Agreement must be fully completed and legible in order for the application to be processed.
- All annual enrollment fees are non-refundable except for sample fees.
- After samples have been prepared and shipped participants may not return any unopened samples for a sample refund.
- There is a \$250 reinstatement fee for participants dropping from a PT program then re-enrolling later in the year.

**A completed Participant Agreement must be submitted with Enrollment Form**

Please check appropriate PAT Program(s)

- ☐ Industrial Hygiene Proficiency Analytical Testing (IHPAT) Program
- ☐ Environmental Lead Proficiency Analytical Testing (ELPAT) Program
- ☐ Bulk Asbestos Proficiency Analytical Testing (BAPAT) Program
- ☐ Environmental Microbiology Proficiency Analytical Testing (EMPAT) Program
- ☐ Beryllium Proficiency Analytical Testing (BePAT) Program

By submission of this signed document to AIHA PAT Programs, the participant acknowledges and agrees to the [AIHA PAT Programs Participation Policies](#) and the following:

- (1) Contact information will be posted in the publicly available PAT Participant Directory (results will not be included in this information); the summary results and overall proficiency shall be released to those entities requiring this information for accreditation or contract purposes.
- (2) Participant shall not submit, as their own, results for proficiency samples that were analyzed by another laboratory, discuss or share proficiency sample or test information with other participants prior to the close of the round, misrepresent material information on applications or any written correspondence with the AIHA Proficiency Analytical Testing Programs, knowingly report fraudulent or erroneous data or misrepresent its participation in a PAT Program.
- (3) The participant shall not use participation in a proficiency testing program as representation of being an accredited laboratory. Any misrepresentation will result in the immediate removal from the PAT Program and forfeiture of fees paid.
- (4) Annual fees are non-refundable. A \$250 reinstatement fee will apply for participants voluntarily dropping participation from a PAT Program then re-enrolling later in the year.
- (5) Any participant that has been dropped for non-payment and chooses to re-enroll will pay a \$250 reinstatement fee as well as the outstanding balance.
- (6) Current participants are invoiced through an auto-renewal billing system and are billed prior to the beginning of the year for the upcoming year's annual fees. Notice must be sent in writing to drop participation in any PAT Program.
- (7) Participants shall submit contact information changes by the next round enrollment deadline to ensure that samples are sent to the correct contact and location. Failure to submit the change in a timely manner by the enrollment deadline may result in undeliverable samples, sample replacement and shipping charges, missed submission dates, and thus failure of a round.
- (8) After samples have been prepared and shipped participants may not return any unopened samples for a sample refund.
- (9) Proficiency testing samples are shipped via a trackable carrier.

A participant or any interested party wishing to develop new analytical capabilities may purchase stock samples (samples from previous rounds) for practice, if available. The data from analysis of these samples cannot be used to document proficiency. Practice rounds may also be used to evaluate laboratory quality control with respect to new analyst training and method validation procedures.

Stock samples **may not be used** to produce derivative products for commercial use or in a proficiency testing scheme. Contact us for a quote for partnership opportunities.
