

Are you an OEHS student, early career professional, or experienced practitioner, and want to **improve** your **Exposure Risk Decisions?**

If so, read on!

Become a Registered Specialist: Exposure Decision Analysis at **No Cost** by following the steps below.

Step 1. Take AIHA's Free Online Course, *Making Accurate Exposure Risk Decisions (Free!)*

Accurate exposure risk decisions are critical to risk management programs that protect workers and optimize the use of limited resources. This video series will teach you a basic understanding of the properties of lognormally distributed exposure profiles and how to use traditional and Bayesian statistical analysis tools to make accurate exposure risk decisions based on monitoring data. The use of several freely available statistical tools will be demonstrated using multiple examples. Upon completion of the webinar video series, you will have the knowledge needed for the successful completion of the exam for the Exposure Decision Analysis Registry. bit.ly/3JRPHIV

Step 2. Apply to take AIHA Registry Programs' Exposure Decision Analysis (EDA) Competency Assessment (Free!)

The Exposure Decision Analysis (EDA) Registry program distinguishes OEHS professionals who have acquired the skills and knowledge to effectively manage workplace exposure and monitoring data. Given basic characterization and monitoring data, individuals with the Registered Specialist: Exposure Decision Analysis credential have the knowledge and skills to make informed decisions about worker exposure and exposure uncertainty. bit.ly/3f8eA5n

Step 3. Take the Exposure Decision Analysis Competency Assessment

Earn a score 70% or higher on both parts and earn a spot on the EDA Registry as a Registered Specialist: Exposure Decision Analysis.

The benefits of being a Registered Specialist in Exposure Decision Analysis include:

- Listing you alongside individuals recognized for ongoing personnel training, quality assurance, and demonstration of competency in rendering exposure decisions
- Improving the overall quality of your management of workplace exposures
- Encouraging a platform of continuous improvement, essential to collaboration and sharing of best practices

Eligibility

There are no specific requirements for candidates to be eligible to sit for the competency assessment, however the exam is for those who have acquired the skills and knowledge to effectively manage workplace exposure and monitoring data.

AIHA
Registry
PROGRAMS™

AIHA and AIHA Registry Programs have provided the above course and exam, respectively, at no cost as a service to the OEHS community.
