

The following NIOSH 582 Equivalency courses have been reviewed by the AIHA Registry Programs®. Listing by the AIHA Registry Programs is not an endorsement of a specific course, however listing indicates that the course outline, training materials and reference documents, equipment, instructor qualifications, certificate and final examinations, provided to the AIHA Registry Programs, meets the requirements detailed in the AIHA Registry Programs' [NIOSH 582 Equivalency Course Requirements for Listing](#) document and is considered by the AIHA Registry Programs to be equivalent to the NIOSH 582 course. These requirements were developed by the AIHA Registry Programs and are not endorsed by NIOSH. Analysts, organizations, or laboratories seeking AIHA Laboratory Accreditation Programs, LLC accreditation or listing on the AIHA Registry Programs' AAR are not required to attend a course that has been reviewed by AIHA.

Listing by the AIHA Registry Programs does not give the provider any specific rights to provide their course. The AIHA Registry Programs do not have any authority over the requirements of a NIOSH 582 course or its equivalent. We are not authorized by NIOSH to approve courses nor is our review sponsored or recognized by NIOSH. We provide a review of NIOSH 582 Equivalent courses as a service to the fiber-counting analysts who participate in our programs. Our goal is to help analysts locate courses that will provide them with education in the Sampling and Evaluating Airborne Asbestos Dust that is equivalent to the original NIOSH 582 course.

This web list is, at a minimum, updated every three years upon the close of the NIOSH 582 Equivalency course update (AAR Policy 2.2.2.3). Not all AIHA Registry Programs reviewed courses are listed on the website, only those courses that have provided authorization and have maintained their listing through completing the required update. An internal list is maintained by the AIHA Registry Programs for all historically listed courses. If you have any questions regarding or find any errors with this listing, please contact the AIHA Registry Programs, at registries@aiha.org.
