Upon [logging into](#) the Registry Portal, the functional areas available to you will be displayed. The functions available may change based on your role or permission level. ([Log In Guide](#))

Functional Areas

Click on the gray box to open that functional area (opens in the same window).

Individual Profile

To view and edit your basic profile and your website credentials.

AAT Data Dashboard

To enter, review and edit AAT data; access AAT Performance Results Reports (as of AAT 129); and to see the schedule for the Open and Future AAT rounds. Analysts will be able to enter, review and edit their own AAT data for the open round and view reports for their current organization. Organization AAR and AAT contacts will be able to enter, review and edit the AAT data of all enrolled analysts for the open round and view the reports for your organization.

Exposure Decision Analysis Registry

Portal for our Exposure Decision Analysis Registry applicants to submit applications.

OHSMS Auditory Registry

Portal for our Occupational Health and Safety Management System Auditor Registry applicants to submit applications.

SDS and Label Authoring Registry

Portal for our Safety Data Sheet and Label Authoring Registry participants to view and submit invoice payments.

AAR Directory

The [AAR Directory of Registered Organizations and Registered Analysts](#). This list is a combination of our previous registry lists that displays both the Registered Organizations and the Registered Analysts in the AAR program. This directory reflects changes to participation, proficiency, and contact information up-to-the-minute. The old static registry lists are still maintained at the close of each AAT round: [AAR Registered Analysts](#) and [AAR Registered Organizations](#).

Registry List

A directory of our Exposure Decision Analysis Registry, Occupational Health and Safety Management Systems Registry and SDS and Label Authoring Registry participants.
