Ms. Jennifer Smith
93493 Sands Place
Williamsburg, VA 12563

Dear Jenn,

Thank you for the tremendous efforts you offered to the Bayside Food Pantry on the occasion of Souper Bowl Sunday 2013. The compassion you show to the people we serve is an inspiration for us all. I've noticed how you treat everyone with respect and kindness, no matter what the situation is. We both know how stressful it can be for the people who find themselves in need of the services we provide, and your words and actions go a long way toward helping them keep their dignity. I just want you to know that your work hasn't gone unnoticed.

Kind Regards,

Mary Ann Schwartz

TO: Jennifer Smith

Dear Jennifer,

Making safety effective and personal (and at times, fun) is a major focus of our safety initiatives. The recent forklift rodeo you hosted at Prairie, as well as the Safety Day, are both excellent examples of getting employees engaged and involved, and keeping safety in the forefront of our employees’ minds.

Thank you for your passion and creativity toward keeping your teams safe, and for sharing great examples for others to use across ABC Manufacturing.

Sincerely,

Barbara Fields

Barbara Fields
December 5, 2012

Dear Graduate Admissions:

I am writing in support of Ms. Jennifer Smith, who has applied for admission to the Master of Public Health Program at the University of Georgia. I have known Jennifer as her academic advisor and instructor, and have been impressed with her ability and perseverance as an undergraduate in the Occupational Safety and Health program at the University of Alabama. Jennifer graduated in May 2011 in the top of her class in a scientifically rigorous curriculum.

Jennifer came to UA to study OSH. Her experiences as a student, in particular, her volunteer work as an educator in the local community, her work with conservation groups on campus and her international travel experience, have convinced her to pursue a career in Industrial Hygiene. Following this interest, Jennifer is currently working on a project studying the ergonomic risk factors of chemical operators in the automotive industry. Her decision to apply to a Public Health program is a result of these experiences.

And she is well prepared. Jennifer will bring a strong background in science to public health care policy, she is intellectually flexible and agile enough to bring information from outside of her area to help solve problems. She takes a quantitative approach to science which is why she completed her minor in mathematics. She is an enthusiastic individual with a clear picture of what she wants to accomplish. She relates easily with both faculty and students and is very organized, disciplined and dependable. She has the talent, motivation and work ethic to be a successful graduate student. I recommend her, knowing she will benefit from and contribute to you program.

Sincerely,

Peter Gonzalez, Ph. D.

PERFORMANCE RATING SCALE

Using the following four (4) broad definitions, complete those Performance Factors that are appropriate to the individual’s job requirements, indicating the effectiveness with which they were applied in performing the duties of the job. You may include specific examples/comments for each block; however, for each Performance Factor in which an employee is rated as Exceeds Expectations or Does Not Meet Expectations, please provide justification in the Comments section.

<table>
<thead>
<tr>
<th>(1) EXCEEDS EXPECTATIONS</th>
<th>Performance of this factor evaluated is consistently higher than required and maintained. <strong>Justification is needed for this rating – please use Comments section.</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>(2) MEETS EXPECTATIONS</td>
<td>Performance of this factor is just right for or somewhat higher than required.</td>
</tr>
<tr>
<td>(3) DOES NOT MEET EXPECTATIONS</td>
<td>Even with guidance, consistently performs below expectations. Performance clearly does not meet expectations. <strong>Corrective Action is Necessary. Justification is needed for this rating – please use the Comments section.</strong> If the Overall Rating is Does Not Meet Expectations, a Performance Improvement Plan is compulsory.</td>
</tr>
<tr>
<td>(4) NOT OBSERVED</td>
<td>Performance of this factor was not observed by the evaluator, or is not applicable to the job duties/functions. Employee may be too new to the organization or performance objective is not applicable to employee.</td>
</tr>
</tbody>
</table>

EMPLOYEE PERFORMANCE OBJECTIVES PLANNING

PERFORMANCE PLANNING

Prepare performance objectives and expectations for each employee, including both the behaviors employees are expected to exhibit and the results they are expected to achieve during the upcoming rating cycle. One performance objective must be safety related. Three to five performance objectives are recommended. Behavioral and results expectations should be tied to the organization’s strategic direction and corporate objectives.

LEADERSHIP/BEHAVIORAL EXPECTATIONS

Effective performance management systems provide behavioral standards that describe what is expected of employees. During the performance planning process, managers should review and discuss these leadership/behavioral standards with employees. It is important for managers for make sure employees understand how the leadership/behavioral standards related to their specific jobs.

RESULTS EXPECTATIONS

The results or objectives to be achieved by employees should be tied to the organizations strategy and goals. The employee’s development needs should also be taken into account in the objectives setting process. Development goals can be targeted either to improving current job performance or preparing for career advancement. Organizational goals need to be translated and cascaded into refined objectives and expectations at the unit, team, and individual levels.
PERFORMANCE FACTORS

1. SAFETY: Working safely is clearly first with this individual; has questioning attitude and attends to the safety of others in the workplace. Can be relied upon to bring unsafe or potentially unsafe conditions to the attention of management and supervision.

- [ ] EXCEEDS EXPECTATIONS  - [ ] MEETS EXPECTATIONS  - [ ] DOES NOT MEET EXPECTATIONS  - [ ] NOT OBSERVED

Comments: Jennifer plays critical safety role in non-routine tasks this year such as remote tool operation, mold line outage, breathing airline system modification, and test area construction activities. Jennifer has increased on-the-job presence performing support and walkdowns in operational areas. Working safely is clearly first, and she displays a questioning attitude. Jennifer can be relied upon to bring unsafe or potentially unsafe condition to the attention of management and supervision.

2. TEAM BUILDING/ TEAM WORK: Consistently contributes to the overall success of the departmental organization by providing vital support to fellow team members. Builds positive relationships and gains trust of other team members. Engages team members in accomplishing tasks of direct interest by communicating early, honestly and completely. Works jointly to resolve disagreements in good faith, and does not undermine colleagues. Acts as a resource, as well as reaches out to others for assistance when needed. Contribute constructively by exercising the highest level of professional and ethical behavior.

- [ ] EXCEEDS EXPECTATIONS  - [ ] MEETS EXPECTATIONS  - [ ] DOES NOT MEET EXPECTATIONS  - [ ] NOT OBSERVED

Comments: Jennifer consistently contributes to the overall success of the departmental organization by providing vital support to fellow team members. She builds positive relationships and gains trust of other team members. Jennifer engages team members in accomplishing tasks of direct interest by communicating early, honestly and completely. She works jointly to resolve disagreements in good faith, and does not undermine colleagues. Jennifer contributes constructively by exercising the highest level of professional and ethical behavior.

3. COMMUNICATION: Informs coworkers and supervisors accurately, timely, candidly, and inoffensively, and practices active listening.

- [ ] EXCEEDS EXPECTATIONS  - [ ] MEETS EXPECTATIONS  - [ ] DOES NOT MEET EXPECTATIONS  - [ ] NOT OBSERVED

Comments: Jennifer practices active listening. She informs coworkers and supervisors accurately, timely, candidly, and inoffensively.

4. COMMITMENT & INITIATIVE: Demonstrates an understanding of and desire to meet TWPC goals by the way time and energy is used at work. Demonstrates willingness to assume greater responsibilities in the workplace.

- [ ] EXCEEDS EXPECTATIONS  - [ ] MEETS EXPECTATIONS  - [ ] DOES NOT MEET EXPECTATIONS  - [ ] NOT OBSERVED

Comments: Jennifer demonstrates willingness to assume greater responsibilities in the workplace. Demonstrates an understanding of and desire to meet ABC Manufacturing goals by the way time and energy is used at work.
5. ATTITUDE: Focuses mainly on getting the job done safely; cooperates with coworkers, supervisors and managers to achieve goals and promotes a team approach to work. Treats others with dignity and respect and expects the same in return.

☐ EXCEEDS EXPECTATIONS  ☐ MEETS EXPECTATIONS  ☐ DOES NOT MEET EXPECTATIONS  ☐ NOT OBSERVED

Comments: Jennifer cooperates with coworkers, supervisors and managers to achieve goals and promotes a team approach. She treats others with dignity and respect and expects the same in return.

6. JUDGEMENT/DECISION MAKING: Gathers data and makes decisions based on facts and observation. Remains open to new developments and exhibits willingness to adapt to new circumstances without being indecisive.

☐ EXCEEDS EXPECTATIONS  ☐ MEETS EXPECTATIONS  ☐ DOES NOT MEET EXPECTATIONS  ☐ NOT OBSERVED

Comments: Jennifer responds very effectively when faced with short-notice needs during work planning or job execution. She exhibits willingness to adapt to new circumstances without being indecisive. Jennifer gathers data and makes decisions based on facts and observation.

7. PLANNING AND ORGANIZATION: Is able to analyze priorities, organize and execute short and long term plans.

☐ EXCEEDS EXPECTATIONS  ☐ MEETS EXPECTATIONS  ☐ DOES NOT MEET EXPECTATIONS  ☐ NOT OBSERVED

Comments: Jennifer can organize and execute short and long term plans. She is able to analyze priorities.

8. JOB KNOWLEDGE APPLICATION: Knowledge level for current position meets minimum requirements; demonstrates curiosity and questioning attitude, and a desire to learn and improve.

☐ EXCEEDS EXPECTATIONS  ☐ MEETS EXPECTATIONS  ☐ DOES NOT MEET EXPECTATIONS  ☐ NOT OBSERVED

Comments: Jennifer’s level of knowledge and skill in the health and safety field considerably exceeds minimal requirements for this position. She applies her knowledge in an effective, conservative manner. Jennifer displays desire and motivation to learn and improve.

9. PRODUCTIVITY: Works efficiently, effectively and energetically to generate work outcomes meeting TWPC goals. Encourages and assists others to do the same.

☐ EXCEEDS EXPECTATIONS  ☐ MEETS EXPECTATIONS  ☐ DOES NOT MEET EXPECTATIONS  ☐ NOT OBSERVED

Comments: Jennifer works efficiently, effectively and energetically to generate work outcomes meeting ABC Manufacturing goals.

10. MANAGING CHANGE: Open to improvements in performing work; frequently contributes to performance-improving changes. Adapts well to changes imposed by forces beyond individual or TWPC control.

☐ EXCEEDS EXPECTATIONS  ☐ MEETS EXPECTATIONS  ☐ DOES NOT MEET EXPECTATIONS  ☐ NOT OBSERVED

Comments: Jennifer frequently contributes to performance-improving changes.
11. QUALITY: Interacts with co-workers, supervisors, internal and external customers to perform work safely, on time, and with the highest quality. Reliably brings up issues to supervision and management that could adversely affect quality.

Comments: Jennifer interacts with co-workers, supervisors, internal and external customers to perform work safely, on time. She reliably brings up issues to supervision and management that could adversely affect quality.

12. CARE FOR THE ENVIRONMENT: Demonstrates a care for the environment by taking action to reduce site chemicals, increase recycling, conserve water and electrical energy, and promote clean storm water.

Comments: Jennifer demonstrates a care for the environment by taking action to reduce site chemicals, increase recycling,

4.6 MANAGEMENT REVIEW
Top management reviews ABC EMS at planned intervals to ensure its continuing suitability, adequacy and effectiveness. ABC will conduct a complete management review at least annually.

Reviews include assessing opportunities for improvement and the need for changes to the EMS, including the environmental policy and environmental objectives and targets. Records of the management reviews are retained.

Input to management reviews includes:

a. Results of internal audits and evaluations of compliance with legal requirements and with other requirements to which ABC Goshen and Syracuse subscribes.
b. Communication(s) from external interested parties including complaints
c. The environmental performance of the organization
d. The extent to which objectives and targets have been met
e. Status of corrective and preventive actions
f. Follow up actions from previous management reviews
g. Changing circumstances including developments in legal or other requirements related to its environmental aspects and
h. Recommendations for improvement

The outputs from management reviews include any decisions and actions related to possible changes to environment policy, objectives, targets and other elements of the EMS, consistent with the commitment to continual improvement.

Smith, Jennifer
JOB DESCRIPTION
Jennifer Smith, Health and Safety Professional

- Responsible for understanding and analyzing workplace activities and potential hazards to support initiatives to identify, control and eliminate hazardous conditions that affect workers, property, the environment and the general public.

- Implements training of employees and managers relative to health and safety policies, procedures and regulations.

- Ensures compliance with all applicable local, state and federal health and safety regulations and ensures that necessary records are prepared and maintained according to established guidelines.

- Promotes compliance with required experience modification rate (EMR), total recordable case (TRC) and days away restricted or transferred (DART) established goals.

- Performs industrial hygiene sampling, result interpretation and management of sampling equipment.

- Analyzes workplaces and designs programs to identify, control, eliminate and prevent disease or injury caused by chemical, physical and biological agents or ergonomic factors that involve the impact of equipment design on a worker’s comfort or fatigue.

- Performs surveys and assessments to determine compliance with health and safety regulations and requirements.

- Is a subject matter expert in one or more health and safety areas (e.g., air quality management, asbestos management, industrial safety, hazardous materials management, hazardous waste management, ergonomics and/or injury and illness prevention).

- Develops methods for predicting hazards from historical data, workplace analyses and other sources. Identifies potential hazards associated with existing and planned systems, equipment, products, facilities and processes.

- Reviews causes and effects of hazards and then evaluates the probability and severity of accidents or exposures to hazardous materials that may result.

- Coordinates training sessions for employees/managers on health and safety regulations, requirements and practices.

- Assists with the development and revision of training materials as necessary to ensure compliance with regulations, current procedures and recognized best practices.
• Provides health and safety support to projects and the Health and Safety manager to implement health and safety requirements.

• Prepares and reviews written programs, job hazard analyses, personal protective equipment assessments and other health and safety program elements.

• Develops, reviews, conducts and approves job hazard analyses and activity hazards analyses.

• Helps develop health and safety plans/procedures and reviews them to identify health and safety concerns.

• Reviews business proposals for adequacy in addressing specified health and safety requirements.

• Participates in plan-of-the-day briefings and safety inspections and oversees work teams to address health and safety concerns.

General Guidance on Clinic Type Selection

1. How many employees work at the facility?
   - Between 50 - 200
     - More than 200
       - Are more than 100 of the employees production and maintenance?
         - Yes
           - Consider Onsite Clinic
         - No
           - Consider Offsite Clinic
     - Less than 50
       - Is the facility located within 30 miles of an offsite clinic?
         - Yes
           - Consider Onsite Clinic
         - No
           - Consider Mobile Unit

2. Do these employees require two or more special medical exams (e.g., chemical specific)?
   - Yes
     - Consider Onsite Clinic
   - No
     - Consider Offsite Clinic

3. More than 100 of the employees production and maintenance?
   - Yes
     - Consider Mobile Unit
   - No
     - Consider Offsite Clinic
PPE Requirements

TANK WASH

**Safety Glasses**
Protect the eyes from minor impact hazards and minor chemical hazards.

**Respirators**
Protect the lungs from contaminants such as chemical vapors, mists, particulates, and dusts. See respirator matrix.

**Face Shield**
Protect the face from splash hazards. Required for corrosives to reduce the risk of facial burns.

**Synthetic Aprons**
Protect the body from chemical hazards while working with corrosives.

**Gloves**
Protect the hands from chemical exposure hazards. See glove matrix.

**Steel Toe Shoes**
Protect the feet from impact and compression hazards from vehicles, falling containers, etc.

**Flame Resistant Clothing**
Protect employees from flash fire hazards.

Protect yourself and ensure your co-worker is protected too!
From: Dew, Jeffery  
Sent: Tuesday, April 05, 2016 11:21 AM  
To: Smith, Jennifer  
Subject: Sincere appreciation

Jennifer,

I am writing this letter to thank you for your outstanding work on the Ventilation Design of Sand Casting unit project. Your functional expertise and attention to detail were tremendously valuable on the project.

You joined the project at a very busy and critical time. You were able to quickly understand the objectives and priorities and make positive, quality contributions to the design, configuration, and testing processes. The quality of your work was recognized and appreciated by other functional team members, the client, and technical staff alike.

Again, I would like to express my sincere thanks for your contributions to our successful implementation of this project. I look forward to the opportunity to work together again.

Sincerely,

Jeff J. Dew  
Project Director

Year End Performance Evaluation

Year End Performance Evaluation Comments

(Manager):
Jen
has a "can do" attitude. She established good working relationships with each DC and led the DC's to achieve desired results including corporate audits, improved KPIs and successfully led the Safety Days to enhance employees engagement. Despite on the road for significant periods, Jen kept me well informed, offered suggestions, and lend extra support when needed (corporate medical team, EMEX launch, cut prevention team). Overall a great performance in 2015.

Excels
I am pleased to announce that Jennifer Smith has accepted the position of Process Safety Management (PSM) Supervisor/Engineer, Automotive Refinish, North America, effective April 1. In this critical role, Jennifer will be responsible for standardizing and supporting the process safety operations within North America to ensure compliance and drive continuous improvement, as well as establish regional best practices in PSM. In addition, Jennifer will have responsibility for PSM compliance at the Boulder facility. She will report to me directly and to Mike Poulsen functionally for the Boulder PSM position.

Jennifer began her career with ABC in 2007 at the Kennesaw Coatings facility with additional responsibilities for the Chicago, IL, and Los Angeles, CA, facilities. She held the Environmental Engineering position in the Environment, Health and Safety (EHS) Midwest Region until 2011, when she joined the Cleveland, Ohio, facility as PSM Engineer, eventually expanding the role to Safety and Health/PSM Manager for Milford. Jennifer transitioned into her most recent role as Process Safety Manager –U.S. and Canada, in 2014.

Jennifer earned degrees in Chemical Engineering and Geology from the University of Boston and an MBA from Cal State University.

Please join me in wishing Jennifer success in her new role.
