Volunteer Group Mission Statement

To promote the continuous improvement of health and safety in confined spaces by creating opportunities, for all who are interested, to learn more about this topic.

Scope of Work

Through training, publications, open exchanges, and social interaction, we share information, ideas and resources on confined space hazards, related industrial hygiene issues, safe work practices and injury prevention.

Goals and Objectives

- To provide interesting and new speaker ideas to the AIHce.
- To provide educational PDCs at the AIHce.
- To provide accident information to the committee members.
- Attacking the Root Cause: Decreasing confined space fatalities.

Current Projects

- Technical Presentations at AIHce 2022 – Notable Confined Spaces (unusual confined spaces, challenging entries, and creative controls).
- Professional Development Courses for AIHce 2022.

Recognition

Products Produced by the Group

Publications: Prevention through Design: Eliminating Confined Spaces and Minimizing Hazards Guidance Document.

Qualifications to Join

Members must be an AIHA member in good standing. If you are interested in learning more about membership, please visit [https://www.aiha.org/membership](https://www.aiha.org/membership).
