

Local Section Membership Rosters

Local Sections must send in their annual membership roster to AIHA. The rosters are used to notify local section members about special AIHA events and to highlight programs, products and services.

Please provide the member's full name and e-mail address (company name, title, and work address is optional).

Contact information of local section members will not be released or sold to any outside entities. Local section members can opt out of receiving communication from national by unsubscribing to the correspondences.

AIHA Canadian Local Sections must receive written express consent from their members before releasing e-mail addresses to AIHA due to an anti-spam law that has an opt-in versus an opt-out feature for email correspondences.
