Founder and President, HealthCare Consulting  
and Contracting, HC3 ([www.hc3fl.com](http://www.hc3fl.com))

Chair, AIHA Indoor Environmental Quality  
Committee

# First: Do No Harm

- Reinforce existing safety protocols and procedures: Ladder Safety, fall protection, Electrical Hazards, Chemical Use, LOTO, Ventilation, Slips, Trips & Falls
- Keep Employees out of Hospitals and Urgent Care Facilities for other injuries
- Minimize contact with public, customers, and vendors

# Reducing Risk of Infection

- Follow Public Health Guidance, but this is a Starting Point and not likely to be protective in all environments and situations
- Do NOT wait for clear and relevant guidance from Public Health Authorities on how to maintain operations specific to your needs.
- <https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility-H.pdf>

# Reducing Risk of Infection: In the Shop

- Perform ongoing, daily, and routine “Cleaning & Disinfection”
- Use Products Registered as effective against enveloped viruses (Corona Virus)
- EPA List-N (<https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>)
- Apply in accordance with Label
- Clean & Disinfect throughout the day based upon number of occupants
- Assume all Employees and Clients are “infected” and apply protective measures
  - Distance and Disinfection
  - PPE

# Reducing Risk of Infection: In the Field

- Send home Employees with Overt Symptoms
- Minimize number of employees riding in same vehicle. Roll down the window
- Wear Gloves (Nitrile) and Face Coverings (Masks) or N95 Respirators
- Wipe down high touch surfaces before and after use
- Clean and disinfect Vehicle interior and high touch surfaces
