Vendor Directory
For OEHS Professionals

After 21 years as the premier resource for industrial hygiene, safety, and environmental products and services, the AIHA Buyer’s Guide has a new name: the Vendor Directory for OEHS Professionals.

Like the Buyer’s Guide before it, the Vendor Directory offers all the information you need to make your purchasing decisions. Companies are listed alphabetically and by product or service category. Participants in AIHA’s Hamilton Club (bit.ly/hamiltonclub), an exclusive program for corporations actively involved in AIHA’s initiatives, are designated by the Hamilton Club logo. Also included is a convenient index of articles that have appeared in this year’s volume of The Synergist.

Along with the new name, the Vendor Directory has an upgraded digital home at aiha.webvent.tv/sites, with a powerful search function and an attractive interface that facilitates browsing on both mobile and desktop devices. Companies that appear in the digital Vendor Directory can update their listing as often as they like, so visit frequently to retrieve the latest information on OEHS products and services.

The Vendor Directory is published annually by the American Industrial Hygiene Association
3141 Fairview Park Drive, Suite 777 | Falls Church, VA 22042 | (703) 849-8888
The advertising representative is Holly Klarman,
MCI USA, holly.klarman@mci-group.com.
Let’s face it, the Covid-19 pandemic changed the way we look at industrial hygiene. More than ever, new technology and cleaning methods are being put to the test in order to protect the well-being of the public. Ensure that you have the data to back up your solution with Assured Bio’s Microbial Product Testing Program.

**Testing Environments**

**BioSafety Hoods:**
Assured Bio’s BioSafety hoods mitigate the risk of contamination from microorganisms, allowing your product to perform in a fully sterile environment.

**The Product Testing Chamber Box**
The BioSafety Hoods operate using our Product Testing Chamber Box, providing your product a small-scale sterile environment to perform in. No outside contaminates will get in the way of your product’s efficacy.

Common uses for the Chamber Box include: foggers, air filtration systems, disinfectants, etc.

- Chamber Box Volume: 183 Liters

**The Product Simulated Staging Room:**
The Product-Simulated Staging Room allows your product to perform in the environment it was intended for. Put your product to the test by challenging it in real life scenarios. The Staging Room includes a custom variable HVAC system and provides air and surface sampling ports at multiple heights. This room has been used to test: foggers, air filtration systems, cleaning techniques/methods, monitoring systems, etc.

**Previously Staged Designs:**
Hospital dorms | Bedrooms | Offices | etc.

- Room Dimensions: L = 16’ 11” W = 14’ 10” H = 8’ 9”

- Commonly Tested Microbes:
  - Parker’s Rat Coronavirus
  - MS2 Bacteriophage
  - Universal Bacteria
  - Universal Fungi
  - Staphylococcus Aureus
  - etc.

FIRST AND ONLY
Wearable Compliance Dust Sampler
With Real-time Optical Sensor

Save time and money
Cross calibrations mean a reduction in gravimetric lab analyses.

Two-in-one air sampler
Direct reading with pre-weighted 37 or 25mm filter and OSHA flow compensated pump for compliance monitoring.

Take corrective action, immediately
as a result of real-time rolling graph, alarm features and wireless data.

Arm your workers with the first and only wearable compliance dust sampler with real-time optical sensor.

salutesafety.com
Salute’s cloud-based platform enables OHS teams to manage all their data and workflows within one unified system—assessments, incidents, hazmat, waste, inventory, training, and more. Whether conducting an inspection, managing a chemical inventory, or downloading an SDS, Salute makes it easy to do from any device. Visit salutesafety.com for a free demo.

SGS Galson
6601 Kirkville Road
East Syracuse, NY 13057
(888) 432-5227 (LABS)
sgsgalson.com
SGS Galson, world leader in IH analysis and monitoring solutions, offers innovative solutions to protect people from hazardous exposures. We’re part of SGS EHS North America offering analytical services at multiple laboratories across the U.S. and Canada for soil, water, air, and bulk materials in the workplace and built environment.

This index lists the feature articles published in The Synergist from January through November 2021. If available at press time, URLs are provided for each article. All articles can be found through the digital Synergist at synergist.aiha.org. Instructions for AIHA members to access PDF archives are available at bit.ly/synarchives.

**JANUARY**

**Confronting Two Crises**  
The COVID-19 Pandemic, the Opioid Epidemic, and the IH  
By Jonathan Rosen and Peter Harnett  
bit.ly/syn2101crises

**Practical, Perplexing, and Unpredictable**  
Sampling and Use Considerations for Peracetic Acid  
By Jenny Houlroyd, Hilarie Warren, and Bob Hendry  
bit.ly/syn2101pa

**Evaluating Exoskeletons**  
Will They Make the Workplace Safer?  
By Ellen Gallo, Robert Baft, Albert Moore, and Bob Deist  
bit.ly/syn2101exoskeletons

**MARCH**

**A New Agenda**  
For Biden Administration and Congress, Pandemic Puts OEHS Issues in Spotlight  
An Interview with Mark Ames by Kay Bechtold  
bit.ly/syn2103agenda

**Spraying Disinfectants**  
Tips for Applying to Surfaces  
By Ashley Augspurger, Nancy Wilson, and Kee-Hean Ong  
bit.ly/syn2103disinfectants

**Implementing Diversity, Equity, and Inclusion in the Workplace**  
How DEI Improves Psychological Safety Culture  
By Bernard L. Fontaine, Timothy Paz, and Lucinette Alvarado  
bit.ly/syn2103dei

**FEBRUARY**

**Training in a Pandemic**  
A Guide to Designing and Delivering Learning Events  
By Jonathan Klane  
bit.ly/syn2102training

**Generation Gap**  
5G Cellular Technology and Worker Protection  
By Robert Johnson and Mona Shum  
bit.ly/syn2102gap

**How to Engage and Influence People**  
Tips from Neuro-Linguistic Programming  
By Carl O. Sall  
bit.ly/syn2102engage

**APRIL**

**After the Pandemic**  
Planning for a Better “Normal”  
By Dana Stahl  
bit.ly/syn2104pandemic

**From Best Practice to Policy**  
Developing a COVID-19 Prevention Program  
By Mark Drozdov  
bit.ly/syn2104policy

**Taking Command of Emergency Response**  
A Primer on the National Incident Management and Incident Command Systems  
By Kenneth C. Eck  
bit.ly/syn2104command
MAY

**Kidney Disease Among Agricultural Workers**
Is Extreme Heat Affecting Kidney Function in Outdoor Workers?
By Jaime Butler-Dawson, Lyndsay Krischer, Mike Van Dyke, and Lee S. Newman
bit.ly/syn2105kidney

**Journey to Your Best Self**
The Practical Benefits of Emotional Intelligence and Mindfulness
A Conversation Between Amy McCae and Tim Paz
bit.ly/syn2105journey

**Sharks and Swimmers**
Evaluating Hazard, Exposure, and Risk During OEL Selection and Use in the Pharmaceutical Industry
By Michael J. McCoy, Nadia H. Moore, and Craig Willey
bit.ly/syn2105sharks

JUNE/JULY

**Hazard or Artifact?**
How OEHS Informs Collection Management of World Trade Center Dust at the 9/11 Memorial & Museum
By Lisa Conte, Kerith Koss Schrager, and Adrienne Gendron
bit.ly/syn2106artifact

**Introducing the FR Assessment Tool**
When Do You Need to Use Flame-Resistant Clothing?
By Cheryl DuBois, Kevin Mahoney, Allie Fletcher, Curtis Hintz, and Georgi Popov
bit.ly/syn2106fr

**A Standard to Help Protect Miners**
The AIHA Mining Working Group's Collaboration with the ISO Mining Technical Committee
By Richard M. Newton and Edgar Y. Reed
bit.ly/syn2106miners

AUGUST

**Sampling for SARS-CoV-2**
PCR Versus Culturing
By Evan L. Floyd and K. A. N. Aithinne
bit.ly/syn2108sampling

**The Lone Lab Worker**
Best Practices for Protecting Researchers
By Paterick Thayn, Janet Eggum, Angela Dartt, and Dawn Toon
bit.ly/syn2108lone

**Managing Reproductive and Developmental Hazards**
Elements of a Successful Workplace Program
By April Clayton, Diana Peroni, and Garth Graham
bit.ly/syn2108reproductive

SEPTEMBER

**Incorporating Equity into Workplace Health and Safety**
Accommodations for Disabled Workers
By Penney M. Stanch
bit.ly/syn2109equity

**Controls in Industrial Environments**
The OEHS Professional's Role, Part 2
By D. Jeff Burton
bit.ly/syn2109controls

**Looking Back on 9/11**
Reflections on the 20th Anniversary of September 11, 2001
By Bernard L. Fontaine, James Detweiler, John R. Kominsky, and Frank Ehrenfeld III
bit.ly/syn2109sept11

OCTOBER

**Mental Health and the Workplace**
Tips for Supporting Workers’ Mental Well-Being
By Liz Hill and Meraiah Marvel

**Process Safety Management and the IH**
Examining OSHA’s PSM Standard
By Matthew Parker and Meraiah Marvel

**The Puzzle of Beryllium**
A Short History of a Challenging Workplace Hazard
By Paul F. Wambach

NOVEMBER

**Reusable Respirators for Healthcare Use**
Advancements in Elastomeric Respirator Technology Address Source Control
By Rohan Fernando, Lee Portnoff, and Emily Haas

**Selecting Protective Clothing for Mixtures**
Permeation, Degradation, and Other Complexities
By Chris Brennan, Norm Henry, and Craig Willey

**Finding a Balance**
Using Leading Health Metrics
By Abby Roberts
AIHA University eLibrary Subscription
Are you dealing with growing responsibilities and a shrinking professional development budget? Keep your skills fresh for a reasonable price with an AIHA University eLibrary Subscription. Subscribe for as low as $180 to get online access to 50 of AIHA’s bestselling publications. Visit bit.ly/AIHAUelibrary.

AIHA Synergist Webinars
Synergist Webinars are presentations by sponsoring companies on topics of importance to industrial hygiene and occupational and environmental health and safety professionals. Contact hours are available to attendees and viewers of recorded webinars. View archived and upcoming events at aiha.webvent.tv. Registration is free.

Accutech-IHS
New Features for Quantitative Respirator Fit Testers
AccuFIT9000® CNC fit testers are OSHA, ANSI, CSA, HSE compliant; AccuFIT9000® PRO tests all tight-fitting respirators. Now with new features including Database Manager™ utility for merging data from other systems and the AccuPACK™ rechargeable power source for ultimate portability. Systems are available meeting all your respiratory protection program requirements.

Advanced Chemical Sensors
Industrial Hygiene Laboratory
Advanced Chemical Sensors is an industry leading industrial hygiene laboratory providing top tier customer service and timely results. We manufacture and test our own passive dosimeter for over 300 chemicals. Visit acsbadge.com.

Assay Technology Inc.
Monitoring Methods
Assay Technology develops cost-effective, convenient methods to monitor exposure to workplace chemicals. We provide personal monitoring badges and IH lab services. Sample for acetic acid, OVs, aldehydes, amines, anesthetics, and others. Meets OSHA requirements. Save 10 percent per box online. Info: (800) 833-1258, assaytech.com.

Assured Bio Labs LLC
WhisperCare® Air Monitoring System
The WhisperCare is a continuous air monitoring system designed to test facilities for mold, bacteria, and the SARS-CoV-2 virus using DNA and RNA analysis. With its longer capturing rate and low decibel output, your facility can quietly collect air samples without disturbing occupants from their day-to-day routine. Visit assuredbio.com.

Casella Cel Inc.
Air Sampling Pumps
Casella’s air sampling pump family is complete! Our low, medium, and high flow pumps have the same user interface to ensure ease of use across the board. Impeccable back pressure for all pumps and market-leading flow stability. You know you are getting the best with Casella by your side. Visit bit.ly/casellaairsampling.

Enmet
EGC Monitor
eGC (environmental gas chromatograph) is an excellent solution for field chemical-specific analysis. It transmits concentration, weather, and GIS position data to your PC. Applications range from benzene, BTX, ethylene oxide, or 1,3-butadiene at ppb concentration levels. Ideal for facility fence-line emission detection and community air monitoring. Visit enmet.com.
ENVIRONMENTAL DEVICES CORPORATION
NEW! HAZ-DUST MODEL HD-1620
Handheld real-time respiratory aerosol monitor designed for firefighters, first responders, and IH professionals. Offers PM$_{2.5}$ AQI and a “go/no-go” one-button feature for rapid deployment. Detects multiple PM sizes with mass concentration and particle number count, temperature, relative humidity, and barometric pressure. Includes GPS, alarms, and wireless networking. Learn more at environmentaldevices.com.

GASMET TECHNOLOGIES INC.
GT5000 TERRA
The Gasmet GT5000 Terra is the world’s smallest portable FTIR multi-gas analyzer. It measures 50 gases simultaneously at sub-ppm levels and identifies “unknowns” using the Calcmet software along with the NIST/EPA® reference library of over 5,000 gases. Provide near-instant results and resolve worker air quality issues on the floor!

NANOZEN
DUSTCOUNT®
DustCount is a wearable real-time particle monitor with built-in sample filter. It is compact, lightweight, and intrinsically safe, with data capture, wireless control, and graphical data display. It is used in mining, pharma, construction, oil and gas, and manufacturing applications.

OHD LLLP
QUANTIFIT2®
The OHD QuantiFit2 is a highly specialized instrument that utilizes OHD’s scientifically proven and patented Controlled Negative Pressure (CNP) technology to directly measure respirator leakage. This innovative technology performs the fastest, easiest, and most precise respirator fit test available, ensuring the best fit and protection for you and your employees.

RAECO RENTS LLC
INSTRUMENT RENTAL SERVICE
Treat yourself to better instrumentation rental service. See RAECO Rents for industrial hygiene, safety, and environmental instrument short- or long-term rentals. We back every rental with our instant-on guarantee. Free round-trip ground shipping on orders over $500! Visit raecorents.com or call (866) 736-8347.

S.E. INTERNATIONAL
GAMMAVIEW® SCINTILLATION DETECTOR
The GammaView is compact, light, and user friendly. It’s paired with a 1x1 NaI scintillation detector that accurately measures gamma contamination and exposure. Whether it’s environmental monitoring, health physics, or scrap metal, the GammaView’s high levels of accuracy and sensitivity make it the superior choice for a range of applications.

SKC INC.
NEW SKC TOUCH CONTROL PUMPS
SKC AirChek® Essential and AirChek Connect sample pumps are perfect for your applications, providing constant accurate flows up to 5 L/min, ease of use, and the highest value. Get touch control, long run times, high back-pressure compensation, and just the right features. AirChek Connect offers Bluetooth connectivity with PC and mobile. Visit skcinc.com/pumps

VELOCITYEHS
ENTERPRISE EHS TECHNOLOGY
Trusted by more than 20,000 customers worldwide, VelocityEHS is the global leader in true SaaS enterprise EHS technology. Through the VelocityEHS Accelerate® platform, the company helps global enterprises drive operational excellence by delivering best-in-class capabilities for health, safety, environmental compliance, training, operational risk, and environmental, social, and corporate governance (ESG). Visit ehs.com.
Here are some of the most popular from this year:

- Cost-Justifying Ergonomics: Methods and Tips for Calculating ROI
- Factory Process and Equipment Noise: Engineering Controls
- Reentry Planning: Healthy Buildings
- Measuring Occupational Noise: An Easier Approach
- Healthy Schools Town Hall Webinar

Synergist Webinars are presentations by sponsoring companies on topics of importance to industrial hygiene and occupational health and safety professionals.

Attendance at all Synergist Webinars is free.
