A member of staff shall help facilitate this call. The outcome will be the selection of up to one project team awardee per AIHA strategic domain.

4. **Resolution of Ties or Unresolved Selections:**

- In the event of a tie or unresolved selection by the Board Liaisons, the matter will be forwarded to the President, President-Elect, Vice President, and Past President for the final decision.

AIHA Volunteer Group Annual Report

The Annual Report is the Volunteer Group Chair's official account of the activities and accomplishments of the VG. Preparation of this report allows the VG to evaluate its performance and institute continuous improvement practices. The report also helps to ensure that the work of the VG is recognized and understood by the Board, and that the VG's work can be placed in the context of AIHA's mission, vision, strategic goals, and content priorities.

The chairs are to submit an Annual Report via the online submission portal **by January 31**. The report should include all activities worked on and/or completed in the previous year. This piece of information is key for the determination of the annual Outstanding Volunteer Groups recognition.

AIHA will nurture and empower a *diverse* and *inclusive* professional community and engage with allied professional organizations to work towards achieving common goals.

- Enhance AIHA's value proposition to attract, grow, and retain a diverse and inclusive community of OEHS professionals as members. Supporting strategies reference ways in which we can enhance engagement, bolstering resources to help early career professionals navigate their career paths, investing in the success of our local sections, expanding scholarships for students, and strengthening and advancing our commitment to diversity and inclusion across all aspects of the AIHA enterprise.
- Enhance AIHA's value proposition to appeal to non-core OEHS and allied professionals. Here we envision creating a new suite of educational products and sense of community for so-called EHS generalists and safety professionals who are being tasked with more traditional IH responsibilities in their jobs.
- Identify and nurture relationships with allied professional organizations. Supporting strategies include reference to customized organizational memberships and continuing our extensive outreach to the dozens of allied professional organizations we partner with.

AIHA will promote the practice of occupational and environmental health and safety (OEHS) by increasing awareness of the value of the profession and growing the organization and profession.

- As an association, communicate our mission, vision, values, and value proposition to increase the strength of the organization. By this, we mean taking proactive steps to attract new members to the organization.
- As a profession, inform organizational leaders of the value proposition of OEHS professionals: who we are, what we do, and why. Here, as evidenced by one of our content priorities—"Communicating OEHS Concepts"—we continue our efforts to educate senior management about the value our profession contributes to a company's bottom line.
- As a profession, broadly communicate to the public AIHA's mission, vision, and value proposition to improve society. We remain committed to educating the public about who we are and how we are making the workplace safer for all workers.
