

The Chicago Local Section of the American Industrial Hygiene Association invites you to:

May Social Event: Unsolved IH Mysteries

In an open floor format, audience members will be encouraged to share their real life IH case studies. All of the data - players, circumstances, and timelines - is shared, but not the outcomes. At the end of the session, the facilitator explains what actually occurred! Inspired by the SOLD OUT workshop featured at AIHce 2015. As always, come prepared to share some drinks with your fellow colleagues.

Date:

Thursday, May, 19th, 2016
