

“Silica Half Day PDC”

The Chicago Local Section of the American Industrial Hygiene Association would like to invite you to a half day PDC on silica. The seminar will review the major requirements and challenges of the general industry and construction Respirable Crystalline Silica standards. The seminar will help participants understand regulatory issues which will impact the industry, including a focus on compliance issues and practical solutions to the challenges facing the industry on a daily basis. Participants will learn how to interpret existing exposure results in light of the new standard. This PDC will count for four (4) continuing education credits (CEUs).

Date

October 14, 2016

Time

Registration: 9:30 AM - 10:00 AM

Seminar: 10:00 AM - 12:00 PM

Lunch: 12:00 PM - 12:30 PM

Seminar: 12:30 PM - 2:30 PM

Speakers

Sandra Harris, CIH, CSP, CET

Occupational Safety and Health Administration (OSHA)

Saundra Harris has worked for the Occupational Safety and Health Administration (OSHA) for 29 years. Saundra worked in the "field" before coming to the OSHA Training Institute performing safety, health and construction inspections six years ago. Saundra is a certified industrial hygienist (CIH), certified safety professional (CSP) and a certified environmental trainer (CET) with a Master of Science Degree in Industrial Hygiene from the University of Central Missouri. Saundra also has a Master of Divinity from Central Baptist Theological Seminary. Saundra worked as a medical technologist for the Veterans Administration in Kansas City, Missouri prior to working for OSHA.

"Education is a process of imparting knowledge from the instructor to the student. It is my job to share as much as my experience to equip the compliance officer or the consultant with the 'tools' to be successful in an ever changing and challenging work environment."

Thomas J. Slavin, CIH, CSP, CSHM, CPEA
Cardno ChemRisk, Slaving OSH Group

Tom Slavin is a Consulting Industrial Hygienist for Cardno ChemRisk and President of Slavin OSH Group. He brings over 30 years of experience in managing occupational safety and health, retiring as Global Safety and Health Director for Navistar, Inc. Tom chairs the ASTM E34 safety and health committee and the American Foundry Society (AFS) 10Q Safety and Health Committee. He participated in the OSHA silica rulemaking process, providing comments and testimony, and has written and spoken widely on the new standard.

Tom is a certified safety professional (CCSP), certified industrial hygienist (CIH), certified safety and health manager (CSHM) and certified professional environmental auditor (CPEA). He has been named fellow by both ASTM and the American Industrial Hygiene Association (AIHA).
